Environmental Education Programme 2023/24

GREEN PREFECT (GP) PROGRAMME

Target: All Primary & Secondary schools in Hong Kong

Objectives:

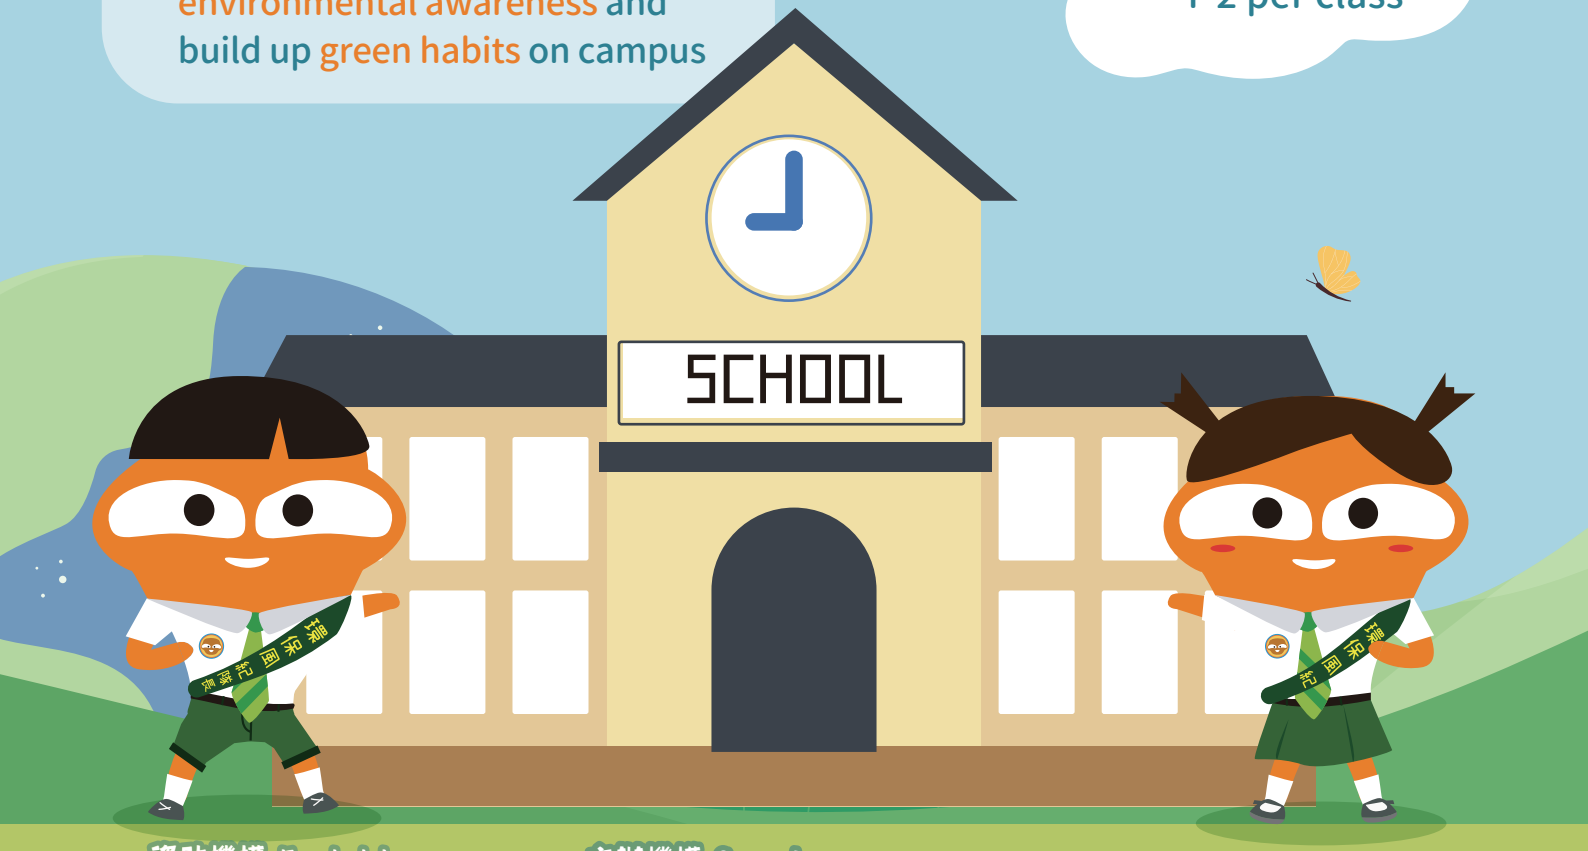
- To enhance environmental performance of the participating schools
- To develop a group of energetic and resourceful GPs with deeper understanding of environmental issues and act as role models for their peers
- To enhance students' environmental awareness and build up green habits on campus

Recommended Structure of GP Group:

1 Teacher Advisor

1-2 Head GPs

School GPs
1-2 per class



資助機構 Funded by

環境及自然保育基金
Environment and Conservation Fund

主辦機構 Organisers

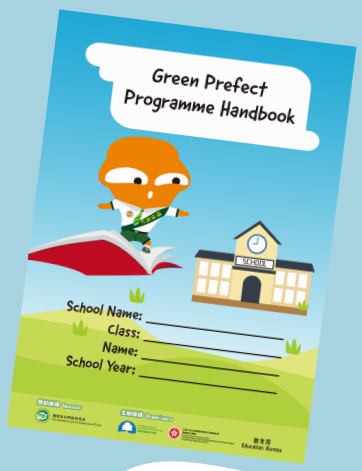
Environmental Campaign Committee
環境運動委員會

中華人民共和國香港特別行政區政府
環境及生態局
Environment and Ecology Bureau
The Government of the Hong Kong Special Administrative Region of the People's Republic of China

教育局
Education Bureau

Appointed GPs will be given:

Big Waster Badge



E-handbook

E-certificate

Responsibilities:

Head GPs:

- To assist Teacher Advisor to manage the group and organise environmental activities
- To be the spokesperson of the group

School GPs:

- To monitor peers' environmental behaviour as well as school's environmental performance with the aid of environmental checklists in GP Programme Handbook
- To act as role models for their peers in practising green living
- To encourage peers to build up green habits on campus

Recommendations from past participating schools:

Secondary School Teacher

Content of the Handbook provided is comprehensive, which facilitates systematic promotion of green campus. GPs conduct regular inspections and organise environmental promotion activities, effectively raising schoolmates' awareness on resources conservation and instigating behavioural changes. The award certificate issued to GPs is also beneficial to their further studies.

This programme promotes whole-school participation in environmental protection, encourages students to support each other to cherish resources and develop green habits from a young age. It not only trains GPs to take the lead in promoting environmentally-friendly practices on campus, but also provides opportunities for them to learn about writing reports, improve communication and presentation skills through monitoring, evaluation and promotion duties. Highly recommended for schools that implement "One-person, One-role" policy.

Primary School Teacher

Special School Teacher

The programme is flexible and can be adjusted according to students' learning ability and school's specific needs. The GP Handbook provides practical environmental measures for students to follow and the "Big Waster" badge could instill a sense of responsibility. After implementing the GP programme, students' performance in energy conservation and waste management have significantly improved. Our school will continue to join the programme in the coming year.

Schools who wish to join and implement the GP Programme in the 2023/24 school year, are welcomed to submit the Registration Form
